WE ARE HERE TO
MAKE YOUR CRYSTAL
DREAM COME TRUE

BOHEMIA TREASURY

with headquarters in Prague and showroom in Humpolec was founded in 2009 utilizing 22 years of collective experience in all aspects of glasswork business. Our experience comes from employment by Sklo Bohemia to close cooperation with Rogaska Factory and Bohemia Crystalex Trading. We helped reviving the fame of their products and rebuilding the confidence of customers while transitioning from previously closed Sklo Bohemia to the newly opened Crystalite Bohemia.

Bohemia Treasury offers exceptional product development and production services, utilizing some of the most talented designers in Czech Republic and most modern & technologically advanced production lines. We carry a great line of products that are being sold worldwide.

Furthermore Bohemia Treasury offers exclusivity on selected models in different market zones for protection and higher profitability of our clients. Bohemia Treasury has earned the loyalty of its customers and their continuous business by providing excellent logistics, timely delivery of ordered goods, Quality products with optimal Packaging and competitive prices time & time again.

THIS IS HOW WE MAKE CRYSTAL DREAMS COME TRUE!

WE ARE BOHEMIA

Latin equivalent of Bohemia, originally Boiohaemum is related with powerful Celts people called Bojas.

Vladimír Salač (60) is the archaeologist with specialization for Laten times and Older Roma age.

Archaeological institute has discovered three original references to the word BOHEMIA. Greek writing Strabón and Latens Velleia Petercula and Tacita as the firsts recorded the words Búiaimon respective Boiohaemum. This happened in the first century AD when in the Middle Europe the Germans had already resided.

In all the books is standing now that the name Boiohaemum has been given to Czech by the tribe of Bojas. But the substantial fact has been missed. This word has German origin and originally it sounded Baia-heim. The home of Bojas or the best translation would probably be there where the Bojas live.

The real territory of Bojas - Boiohaemum has been located from Würzburg (Bavarian Germany) up to Ostrava city (east of Czech Republic). So this is the original region settled by the Bojas tribe – territory of BOHEMIA today by mistake and ignorance connected only with Czech. (Vladimír Salač, 2017)

Source: Vladimír Salač (60), graduated archaeologist in famous Prague philosophic University UK (1981). Many years primary operating in Prague's Archaeologist Institute AV CR. Specialized in Celts oppidums and Laten settlement ceramics.

DESIGNERS

BOHEMIA TREASURY would like to offer it's customers extraordinary, beautiful and also functional design. The necessity to provide these attributes is the significant artistic talent and also certain knowledge of production limits and technologies, decoration techniques and sense of detail. Since the beginning we are thinking of any space on the surface of our products, functionality, possibility of further decorations and also how and where the products will be used. In the year 2017 we have addressed the real specialists with many year's experiences and together with them we have developed our collections SAMBA and BOLERO which become full of beauty and functionality of crystal glass. The design of these collections has been breathed in by Mr. Miroslav Machek, Dana Novakova and terrific decorations have been born in the company of Ales Zverina.

MIROSLAV MACHEK

To combine design, functionality and mass production – that's his motto.
On the basis of a vision and technical skills, a design which is available to everybody is created.

COLLECTION FLAMENCO

Dynamic lines of the collection has been inspired by the substance of this same name dance.

The frolic sharply contrasts with the still mimic of the female dancers who express their sorrow through the motion temperament. Apparent opposite of the dual lines creates extraordinarily effective image of this collection.
