VICOMTE 9201401

VICOMTE

It has all the features you can expect from the set named Vicomte. Festoon area with style relief to be decorated, relief cups on leg and decorative handles. Current technology is able to manage reproduction of fine reliefs. Ceramic prints reproduction technique ensures difficult decoration also with precious metals which was earlier possible only by hand painting. Just decoration collection prepared especially for this shape should test its commercial value and anticipated success. After all its design is self confident as Vicomte de Valmont as well as its producer bearing the name of noble family establishing porcelain production in Bohemia - Thun 1794 a.s.
